How to calculate your score

Each problem has 'START' holds, a 'ZONE' hold and a 'TOP' hold.

Climbers should begin their climb on the START holds. The climb is completed by matching two hands on the TOP hold.

The goal is to try and score as many tops and zones as you can, in as few attempts as possible.

Climbers must log the attempt in which they first held (and controlled) the ZONE hold, and the attempt in which they first held (and controlled) the TOP hold.

We will use these numbered attempts to calculate your score.
